

K-LOVE has served me as a resident of Tucson, AZ. in many different ways. I can listen to positive music that encourages my family, friends, and everyone who is around me. I know that I don't have to change the station when around little children, because the content of the music on the station is one of good moral values. I can listen to K-LOVE and it seems that whatever is going on in my life at that time, they have a message that is pertaining to my situation and it is very comforting and encouraging to know that.

If K-LOVE was displaced by an LPFM broadcaster it would affect my local community in the fact that we would no longer have a positive and encouraging radio station to listen too. Another thing it would do is make so that families across the nation couldn't listen to the same station. It is a comforting thing when you move away from family and friends to know that you are both still listening to the same radio station even on the other side of the USA. This radio station links Christians all over the world and keeps a strong network of family. By displacing K-LOVE, you would be breaking the bond that it has taken so long to build.

The service K-LOVE provides is in the public interest because when there are people hurting or going through problems and have turned every way to change them, they can turn on a radio and flip through the channels to find K-LOVE to help them. I know it happens because I have seen it happen. Without K-LOVE on the air, it would be impossible for non-Christians in their time of need to come to know the Lord as it possible with K-LOVE on the air now. I believe that by taking K-LOVE off the air or displacing it, our nation which is under God, would crumble beneath us.
